

# DISTRICT CODE OF CONDUCT

The Board of Education believes that the conduct of students should at all times contribute to a safe and positive learning environment. Each student is expected to respect the rights and property of others, and to adhere to Board and school regulations and rules. Each student must meet the expectations set out in the B.C. Human Rights Codes. There must be no discrimination or an intention to discriminate against a person or a group or class of persons because of the race, colour, ancestry, place of origin, religion, marital status, family status, physical or mental disability, sex, sexual orientation, gender identity or expression, or age. Consequences for misbehaviour must be applied in a reasonable, firm and judicious manner and shall not include corporal punishment. These consequences should be designed to teach students to be responsible citizens in the school community and to promote personal and social development. Whenever possible and appropriate, consequences will be restorative in nature rather than punitive. The Board will take all reasonable steps to prevent retaliation by a person against a student who has made a complaint of a breach of a Code of Conduct.

The purpose of this Code of Conduct is to:

- (a) direct the student toward responsible behaviour;
- (b) maintain an orderly, positive school community conducive to learning; and
- (c) protect persons and property.

**Scope of This Code of Conduct** Except where a rule is expressly limited to time and place, this Code of Conduct applies to students of the District who are involved in:

- (a) any activity on school premises whether during a regular school day, outside the regular school day, or on a day that is not a school day;
- (b) travel on a school bus or other transportation contracted or arranged by the Board or School;
- (c) any activity sponsored by, organized by, or participated in by the school regardless of time or place;
- (d) any activity that affects the rights or properties of neighbouring residences or businesses.

## **SCHOOL RULES**

Students shall comply with the *School Rules* authorized by the Principal and with the code of conduct and other rules and policies of the Board.

#### STUDENT SUSPENSION

A principal of a school shall, in accordance with this Code of Conduct and other policies of the Board, exercise paramount authority within the school in matters concerning the discipline of students. Discipline may include the suspension of a student from attending school where in the opinion of the Principal (or designate), such action is warranted and provided that an alternate educational program is made available to the student.

## **Special Needs Student - Suspension**

When students with identified special needs require intervention regarding their conduct the principal will ensure that such students have been adequately assessed, that appropriate interventions are applied before suspension is considered, that the grounds for suspension are clear and appropriate, that meaningful education programs or interventions are offered during the period of suspension and that planning is undertaken for successful re-entry.

## **Suspension of Five Days or Less**

A Principal of a school may, and is hereby authorized to, suspend a student from the school for a period not exceeding five consecutive school days. Parental contact will be established by telephone and/or by personal interview prior to a student leaving the school on suspension.

## **Suspensions of More Than Five Days**

A Principal of a school may and is hereby authorized to suspend a student from the school for a period exceeding five school days pending a hearing by the Student Conduct Review Committee. In such a situation, the Principal should notify the Assistant Superintendent so that a meeting can be convened, when possible within five days of suspension. The Student Conduct Review Committee may require that the student, or the student and the parents or guardians, be present at a meeting of the Committee prior to a decision on the matter. The Student Conduct Review Committee is authorized to suspend students for a period exceeding five days or to withdraw the student from attendance at a school if the student is beyond the age of 16.

#### **APPEALS**

A student or parent of a student may appeal a decision of a principal, or a decision of the Student Conduct Review committee, according to the School District #6 Appeals (Bylaw II).

#### STUDENT DISTRICT CODE OF CONDUCT POLICY 5850 UPDATE:

## **Digital Devices and Communication**

Growing evidence suggests that digital devices can have a negative impact on wellness and academics. This is especially true in the absence of digital literacy instruction. Digital devices (smart phones, smart watches, listening devices) are often used during periods of instruction, under the clear direction of an educator, as tools of learning and inclusion. Personal digital devices should not impede or interrupt the sustained learning time in classrooms. The following steps will promote sustained uninterrupted learning and increase student safety. (a) All schools restrict the use of personal digital devices during instructional time except where: a. The teacher invites their use for instructional purposes; b. A student requires the device for: i. documented medical needs ii. documented learning accommodations (b) Further details about the possession of personal digital devices during school time will be described by each school's codes of conduct. (c) Schools will communicate to the educational community about the ways personal digital devices are used within the school. (d) Students are responsible for storing and securing their personal digital devices should they choose to bring them to school. (See DTSS Cell Phone Policy *Please see the complete Code of Conduct for Students at the School District 6 website*.

## **DTSS Cell Phone Policy**

Use of Cell Phones and Other Devices by Students

September 1, 2024

#### Rationale

This protocol has been created to:

- support students to develop safe, responsible and respectful cell phone practices;
- reduce the impact that inappropriate phone usage has on class learning, the development of resilience as well as administration and teaching time; and
- support students to manage their relationship with technology and develop long term healthy lifestyle habits; including developing the capacity to engage in developmentally appropriate and healthy activities during instructional "down time" that do not involve technology.
- be in compliance with Rocky Mountain School District Code of Conduct policy 5800

## Scope

Personal electronic devices include, but are not limited to, mobile hand-held devices, cell phones, smart watches, iPods and other music players, gaming devices, and earbuds. In this protocol, they are collectively referred to as 'cell phones' as these devices are very much an all-in-one, personal electronic device. This protocol is established to reduce distractions in class and to improve student engagement during instructional time. For the purposes of this protocol, instructional time is established to be from the start to the end of class time, regardless of what the class activities may include.

#### **Student Responsibilities**

All Students (Grade 8 to Grade 12)

- At all times, students must follow district Policy 2700 Acceptable Use of Digital Technology
- Students are encouraged to leave cell phones at home.
- Students have access to district landline phones at school should they need to contact their parents/caregivers. This can be done at the office or with the permission of the teacher in the student's classroom.
- Students may use cell phones on the journey to and from school and during non-instructional times while at school. In doing so, students are expected to use them responsibly.
- Students who bring a cell phone to school must switch it off, put it on airplane mode, turn off notifications and either hand it in at the office for safe keeping to be collected at the end of the day, or store it in their locker or school bag during instructional time. Instructional times include assemblies and other school wide activities like fire drills.
- Students may access their cell phones before and after school and during school wide scheduled break times. All other times are cell phone free.
- The device is not to be accessed for recreational use (music, social media, gaming etc.) during instructional time.
- Photos, videos or audio recordings are to be taken only with permission of all parties and with the agreement of the supervising teacher.
- Cell phones cannot be taken into formal assessment situations.

• Use of cell phones on field trips and extra-curricular excursions will be specified by the teacher for the particular activity.

# Parent/Caregiver Responsibilities

Inappropriate use of cell phones outside of this policy

• Parents/caregivers accept responsibility for supervision and development of responsible use of cell phones by their children.

#### Communication

- Parents/caregivers should support the policy by sending messages to cell phones outside of instructional times and not expecting a response from their child during instructional times.
- For non-urgent issues that require attention before the end of the given school day, parent/caregivers are encouraged to leave a message through the office.
- The school communicates via established protocols to caregivers should there be an emergency requiring evacuation or lock down.
- Parents/caregivers can expect to be contacted directly by school staff should their child be injured and/or require serious medical attention.
- Parents/caregivers should contact the office in case of an emergency. Your child will be immediately and confidentially notified of the need to communicate with a parent/caregiver.

## **Staff Responsibilities**

All staff at David Thompson Secondary School:

- model the appropriate use of cell phones at school;
- participate in establishing shared knowledge of this protocol with students and their parents/caregivers by reviewing and discussing with all students enrolled in their class and following up with parents as required;
- implement the protocol as outlined and monitor the cell phone free classroom learning environment consistently;
- develop and employ class routines to achieve a distraction and interruption free environment e.g. designating space in the classrooms for students to place their bags;
- provide explicit instruction about the appropriate and acceptable use of cell phones in their learning context when applicable.
- use cell phones to fulfill duties e.g., notify emergency services, report safety issues to administration, manage class attendance, communicate with parents and complete administrative tasks when not able to access laptop devices;

#### **Individual Exemptions**

Individual students with documented and verified needs will work with the relevant School Based Team member (principal, vice principal, counsellor, inclusion support teacher or other trusted teacher) to develop and enact an appropriate exemption plan. The exemption plan, requires that the student turns off all notifications to "recreational apps." Final approval of the plan is given by the principal and will be communicated to the staff working directly with the student.

#### Security

David Thompson Secondary School cannot take responsibility for the loss, damage or theft of any electronic device that is brought to school.

#### **Response and Consequence of Misuse**

The protocol implementation process will require a period of establishing shared expectations, an understanding of student, parent, and staff responsibilities, and an awareness of the consequences of not meeting the expectations of this protocol. Following a reasonable time for "field testing," students will be expected to follow this protocol consistently in all their classes.

## Response to Misuse

- Students who misuse personal electronic devices according to this protocol will be subject to district Policy 5800: Code of Conduct and the David Thompson Secondary School Student Code of Conduct published on our website.
- Staff have the right to instruct a student to hand in the device to the office and/or confiscate as delegated by the principal.
- Refusal by students to co-operate will result in a referral to administration
- Parents or caregivers are normally required to collect the device from the office unless there are extenuating circumstances, which are determined by the principal or vice principal.
- Serious or repeated misuse will be treated as willful or persistent disobedience and could lead to referral to the District Discipline Committee and/or suspension from school.

Consequences to Misuse (includes but are not limited to the following)

- cell phone is given to the teacher until the end of class
- cell phone goes to the office and the student picks it up at the end of the day
- a meeting with parents and administration
- storing the phone in the office during class time for a specified number of days
- if incidents are frequent and in multiple classes, cell phone privileges will be reevaluated.

## **Implementation**

To successfully implement this protocol school wide, all staff will be required to develop a shared understanding with our learners and parent/caregivers starting the week of September 3, 2024. Students will be educated about the policy and full implementation along with full student compliance will begin right away with the understanding that there will be a learning curve.
